**Subject:** UBER

To whom it may concern:

Would someone please explain the order to cause UBER to cease and desist operation in South Carolina? On the surface, it seems that this decision was based more on the support of an established industry and its entrenched players, i.e., Yellow Cab, then on the true betterment of our community through your so called "protective" action. Based on UBER's assertion that there was ongoing dialogue with your agency for a solution for legal operation, it would appear that your surprise decision was not in good faith.

I have no political, financial, or personal agenda here. I am not a shareholder or business partner of UBER. Who I am is a citizen who pays A LOT of tax money to the state of South Carolina, and as a consumer and business owner, I simply want to see our state participate in cutting edge disruptive technology that allows companies like UBER to prosper. Have any of you ridden in a Yellow Cab? How about an UBER car? The former are typically dirty, old, smelly, etc. etc. The latter...just the opposite. I use UBER in many other major cities both here in the US and abroad and have literally NEVER had an unpleasant experience. Or an unsafe one. I can't say the same with cab rides. Further, you never know if the cab credit card machine works...or if they'll even accept a credit card. You also never have any idea how much your ride will cost. These problems don't exist with UBER.

So my question is this. Is this decision really about protecting the citizens of South Carolina or is it about protecting the taxi companies in South Carolina? I'd like someone to investigate the amount of political contributions made by various PACS, etc. who promote the entrenched taxi industry.

With concern,

***Andy Dyer***

I am outraged that you have issued an order that Uber stop operation in SC. I use Uber all over the country and am very satisfied with their level of insurance and their safety track record. You are being manipulated by the taxi lobby who wish to maintain their protected status. I and my fellow South Carolinians demand that you rescind this order.

**Subject:** SC Needs Uber!

To Whom It May Concern,

Please cease and desist the attack on Uber in South Carolina. As a state with such limited public transit options, South Carolina desperately needs safe and affordable services like Uber to improve quality of life for residents as well as tourists visiting the state. It would be a terrible mistake to impede these services in our state. We must move away from our dependence on car ownership and offer viable transit options.

Uber is a safe, convenient and affordable way to get around. To take it away would be a terrible disservice to South Carolinians. It would personally impact not only my own daily life but those of countless others that I know personally.

Mary McGowan  
Greenville, South Carolina
